**Presenter:** Meghan Davison

## Description of Project

Computer science is a growing field! Learning to code is fun and there are resources out there for beginners.

## Materials Needed

1. Tablet or computer with internet

## Steps

1. Go to [www.code.org](http://www.code.org)
2. Click on “Learn”
3. Click on “Hour of Code”
4. Choose an activity. Activities include Minecraft, Frozen, and Star Wars.

## Tips and Suggestions

1. Discuss the importance of code with students
2. This website allows students to work through the activities with minimal guidance from the teacher because the website provides a great deal of guidance.

## Extension Projects

There are many different resources out there to teach Code!

1. Tynker
2. Daisy the Dinosaur
3. Kodable
4. Scratch
5. Khan Academy (advanced)
