

# North Country STEM Network

The North Country STEM Network is proud to partner with the STEM Learning Ecosystems Community of Practice and UBTECH to offer Camp: ASPIRE, a safe, virtual robotics summer camps. This partnership allows participation at a special discounted cost.

Camp: ASPIRE is a structured, week-long camp, delivered over 5 consecutive days (Monday-Friday). Each camp consists of daily, two hour live virtual instruction and offline self-paced activities aligned with the program's curriculum and theme. Camp: ASPIRE is appropriate for students newly interested in STEM or robotics topics, or for an experienced programmer, with class options ranging from beginner to more advanced. All classes are taught by certified teachers with specialized training

Camp participants will receive and keep a comprehensive robotics kit featuring 300+ pieces, servo motors, sensors, and more! Children ages 8 to 11 (Beginner) may choose between two different themed camps: Robotics, Coding and Engineering or Animal Robots. Older children, ages 11-14 (Intermediate) , may choose Robotics & Sensors or A Helping Hand. Camps are offered during different weeks and at different times throughout the summer.

For more information or to register, visit <https://ubtecheducation.com/camp-aspire> . The cost of the Beginner camp is \$ 400. To secure a \$50 discount enter NCNYSTEMBEG in the promo code box. The cost of the Intermediate camp is \$500. To receive a \$75 discount, enter NCNYSTEMINT in the promo code box.
