

JL BOCES

Puzzle Piece Snowflake

Presenter: Meghan Davison

Description of Project

This puzzle piece snowflake is an example of a low-cost MakerSpace project that can be completed by repurposing materials

Materials Needed

1. Puzzle pieces
2. Glue

3. Paint

Steps

1. Lay out your puzzle pieces before gluing to create a draft of your snowflake

2. Start gluing together starting at your center anchor point

3. Paint

4. Decorate if desired with glitter or sequins

Finished Project

Tips and

1. Only a little glue is needed to hold pieces together
2. Glitter and sequins help hide glue imperfections
3. Painting can be completed before and/or after gluing. Painting at the end helps cover any glue that spills over.
